District-Attorney Smith on Wednesay exhumed the body of Clarence Foster, one of the victims of the Tiana loubt whether there was a fracture of the skull or a depression of the bone which would indicate that a blow had been struck. When Rheumatism settles in the bones and muscles of the legs, the victim eventually becomes helpless and crutch-bound. The corrosive, irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are destroyed the joints become locked and the muscles drawn and

stiff, and crutches a necessity. The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body—resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty parti-

cles are washed out or dislodged by the new rich blood, and relief comes to the pain-racked sufferer.
S. S. S. leaves no morbid, irritating matter in the blood to reunite and produce another attack, but expels every atom of it from the system. S. S. S. is a purely veg-etable remedy, and does not impair the digestion or general health like

alkali or potash remedies. Write for our special free book on Rheumatism, and if any medical advice or other information is wanted, our physicians will gladly furnish it without charge. THE SWIFT SPECIFIC 60., ATLANTA; 6A.
